Re: Meal Plan & Care Packages

Ahniin Chimnissing,

We will be assigning 10 people meal for meal preparation. There will be a schedule created with a list of volunteers & staff available to assist. We will be utilizing 6 drivers (volunteer & staff) for delivery, who will also be scheduled for different days according to availability.

Marlene will be contacting seniors (65+) to determine who would like meals & which days, they will be automatically added to delivery list.

We will have one dedicated person receiving calls at Social Services for people to contact for meal provision, you must contact us the day before if requiring delivery (as we're arranging the driver's delivery routes).

All meals will be packed in takeout containers. There is a 2-hour window to access meals. For the first couple days, we will allow in person pickup, but precautions will be made to keep ppl at a safe distance from each other, utilizing one doorway for pickup, nobody is to enter bldg. After the first couple days, we are anticipating we can move to strictly delivery by Monday at the latest.

We will need to know who is in isolation, or for those in isolation who require meals, to also inform us they'll need delivery. **They cannot come in person.**

Delivery will only be a drop off on the doorstep & a quick honk of horn to notify of delivery.

Once all supplies are in for food bank, we will be putting together care packages for access next week, and they will be delivered along with the meals for those needing food supply help.

Miigwetch,

PJ Sandy
