Water Treatment Plant Update – Water Conservation Notice

The BFN Water Treatment Plant is currently experiencing issues with the SCADA system. Staff are actively working to troubleshoot and resolve the issue. As a precautionary measure, the Water Plant team is recommending a Public Water Conservation Notice.

Residents are strongly encouraged to limit all non-essential water use wherever possible, including:

- Refraining from using washing machines and dishwashers
- Keeping showers brief
- Turning off taps while brushing teeth or shaving
- Limiting outdoor water use, including lawn watering
- Flushing toilets only when necessary

Reducing water consumption during this time helps maintain sufficient water reserves for essential services such as drinking water, sanitation, firefighting, and emergency response needs.

Further updates will be provided as more information becomes available. Thank you for your patience, cooperation, and understanding while staff work to resolve the issue.

For any questions or concerns, please contact myself bmarsden@chimnissing.ca or Roland at rsylvester@chimnissing.ca, 705-247-1155.
