Community Notice – Road Paving Operations

Please be advised that Seely & Arnill is scheduled to complete paving on Mkade Kegwin Miikan from August 25–27, 2026, weather and site conditions permitting.

The work will take place from the current paving limits near Mkade Kegwin Miikan and Megyaakwaa Miikan to the intersection of Mkade Kegwin Miikan and Shki Miikan.

During this period, the affected section of Mkade Kegwin Miikan will be closed to through traffic. Local access will be provided only to residents whose homes are located within the affected section. All other motorists are asked to use the detour route.

To support the paving operation, Seely & Arnill paving trucks and equipment will be given priority on the ferry from August 24–28. Other contractors and suppliers are asked to minimize non-essential deliveries during this period where possible. Note: Emergency medical service calls will continue to receive priority at all times.

Following the paving work, road patching is scheduled for August 31–September 4 to repair areas of roadway damaged during the fibre optic installation.

These works are part of BFN's efforts to complete the remaining road improvements this construction season.

We appreciate everyone's patience and cooperation.
